LET'S MEET
THE MAIN CHARACTER
OF CODE & HEART'S

Hi! i'm Jasper,
20 yrs old,
3rd-year IT student.
Friendly,hardworking
,loves coding and
coffee.

Hi! I'm Blake
21 yrs old,
3rd-year IT
student. Quiet,
intelligent, and
serious about
programming.
Caring underneath
and calm
personality.

Hi! I'm ROWAN
20 yrs old,
3rd-year IT student.
Jasper's close
friend. Playful,
observant, and
loves teasing
Jasper.

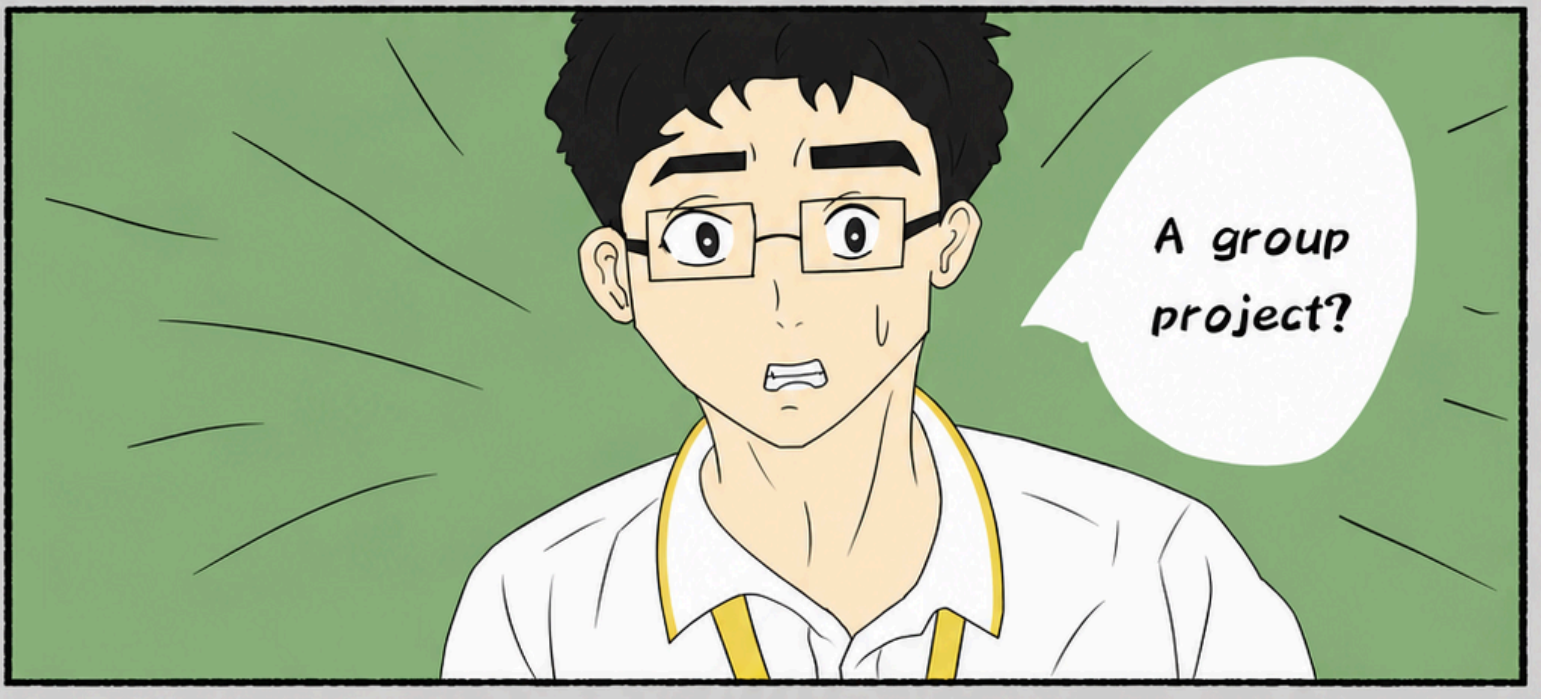

Ah...
It's Already
11:59?!
Class starts
in 15 minutes...
11:15
Today
Class starts
at 11:30
Don't
be late
son!
coo
TAP
TAP
TAP
I'm
late!!!
PHINMA COC

is that blake?
He's actually handsome..
Jasper?
Looking for someone?
N-No!
I'm just looking around!

Good morning! everyone. Save your work.

For your final requirement, you'll create a working information system

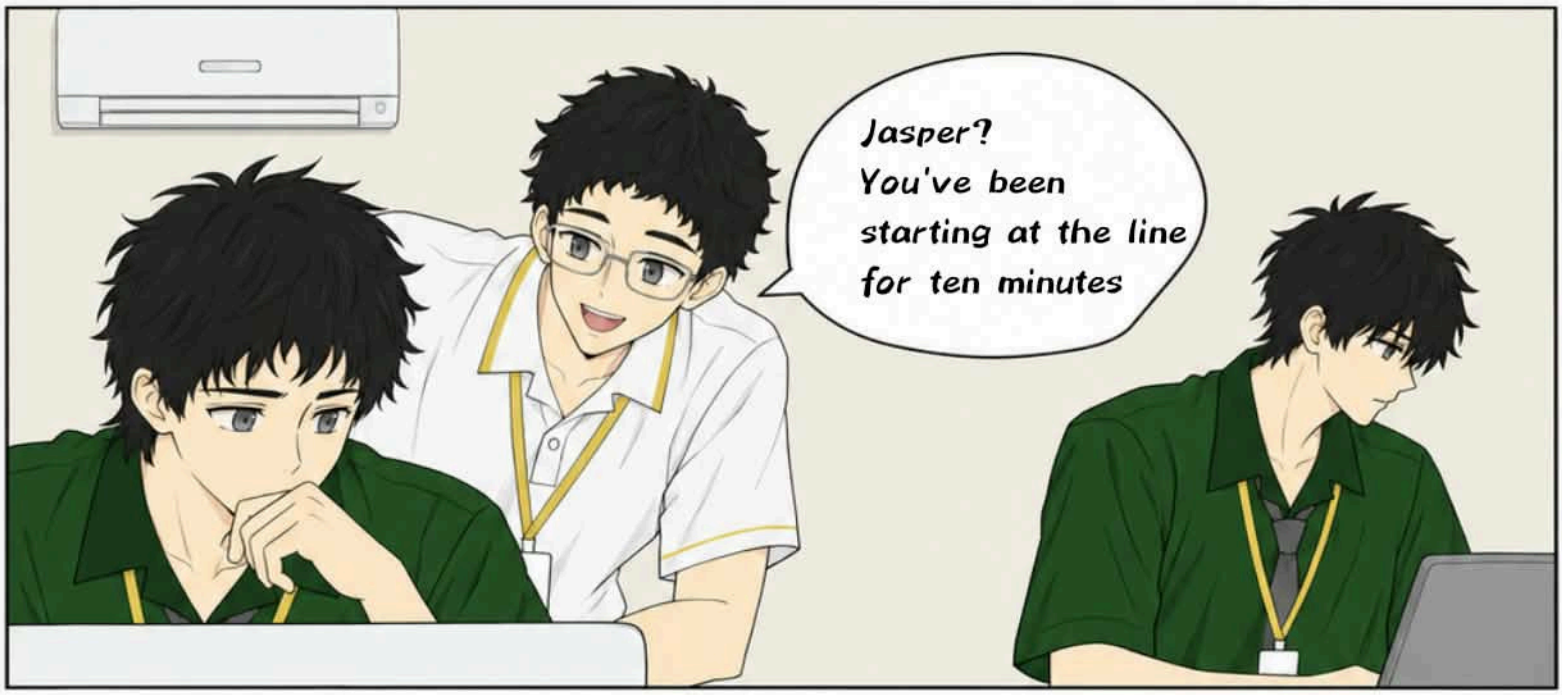

A group project?

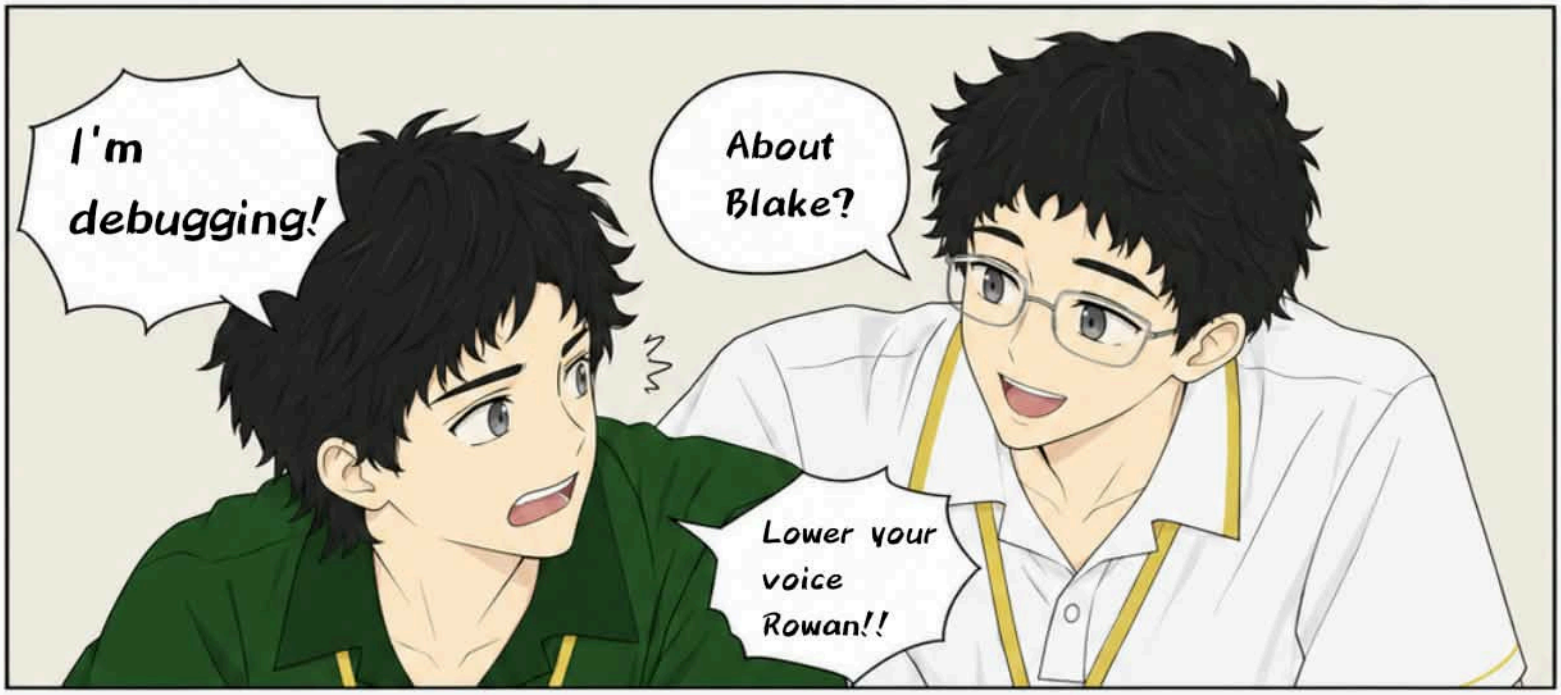

This is dangerous..

you know how group projects usually ends.

Everyone disappear?
Exactly.
you two are already complaining?

Jasper, Rowan, and Blake
You three will work together
Gues we're really a team now.
Yeah

Jasper? You've been starting at the line for ten minutes

I'm debugging!
About Blake?
Lower your voice Rowan!!

What happened?
Nothing!
Absolutely nothing.

Why isn't it working?
ERROR: APPOINTMENT COULD NOT BE SAVED.
OK
Show me the database query
Here. I thought everything is correct
1 SELECT *
2 FROM appointments
3 WHERE patient_id = ?
4 AND status = 'Pending';
5
I think I found it
You did?
Let's fix it together!

Try running it again.
Okay...

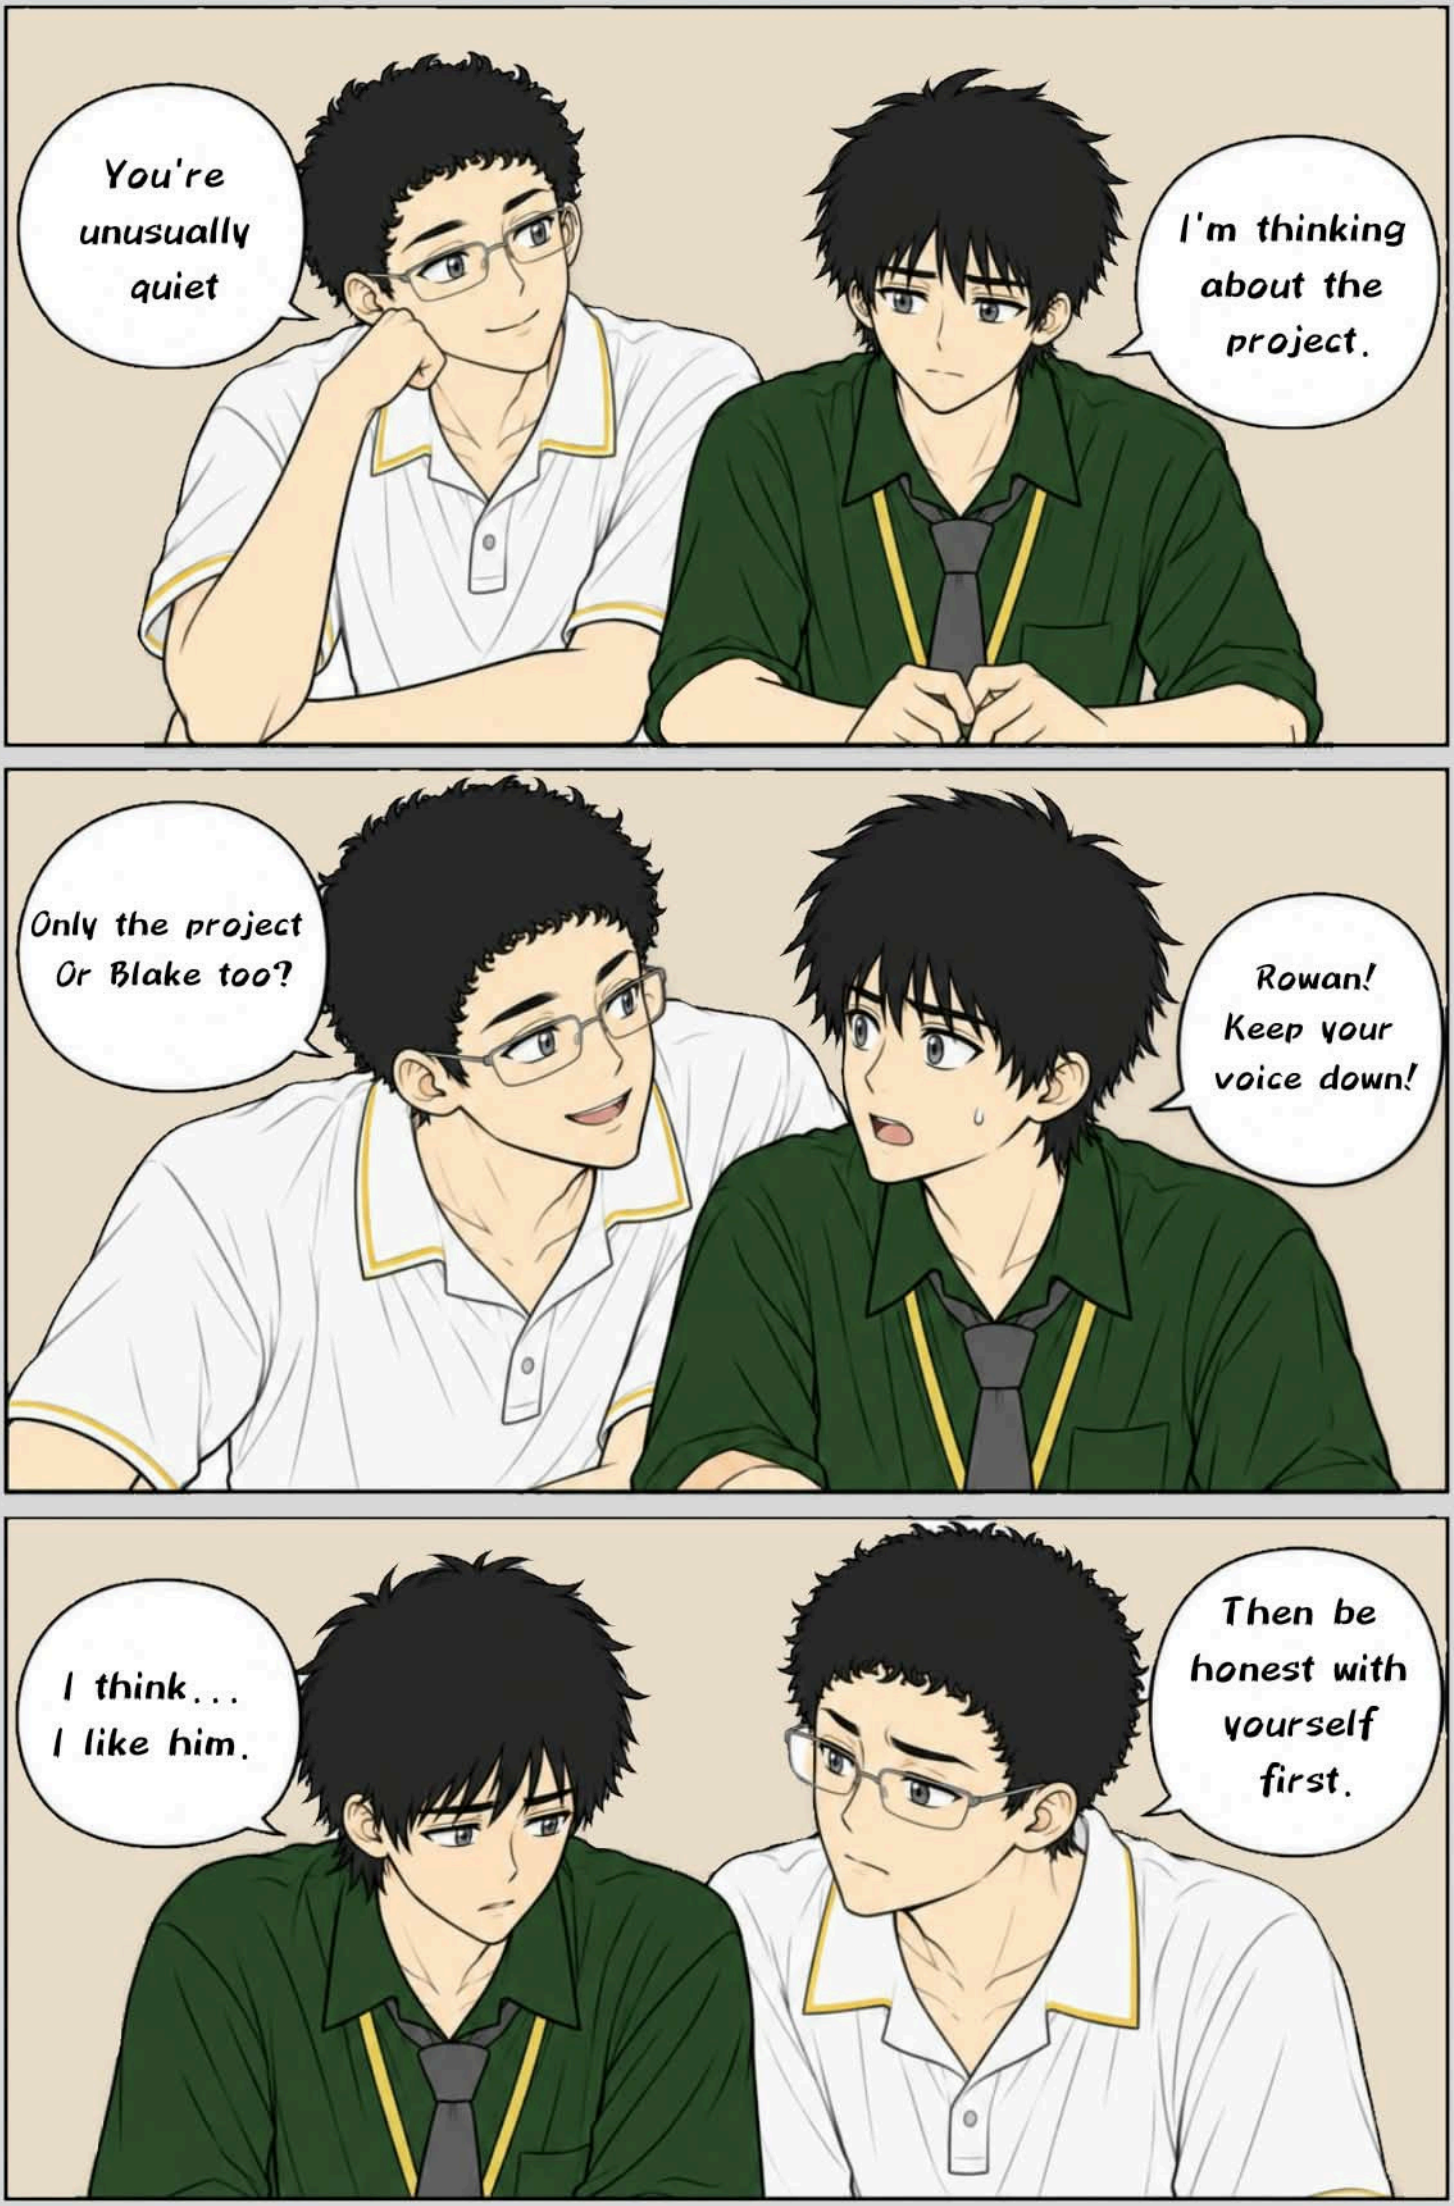

Dashboard
Appointments
Patients
Reports
Settings
Appointment System
APPOINTMENT SUCCESSFULLY SAVED.
OK
It's works!

Nice work your good at databases
Thanks, Blake!
Why does his praise make me happy?

I got these for us.
Thanks Blake..
You always get iced coffee
Team coffee HAHAHA!
You're only the one drinking coffee..

Where did data go?!
Restore Backup
RESTORE FAILED.
The backup file is invalid or corrupted.
OK
Jasper, What happened?
The database is corrupted!
Please tell me there is another backup.

The backup might still be usable.
But our deadline is close!
Then let's stop worrying and start working
You don't have to solve everything alone.
I just don't want to disappoint you both
You won't.

You're unusually quiet
I'm thinking about the project.
Only the project Or Blake too?
Rowan! Keep your voice down!
I think... I like him.
Then be honest with yourself first.

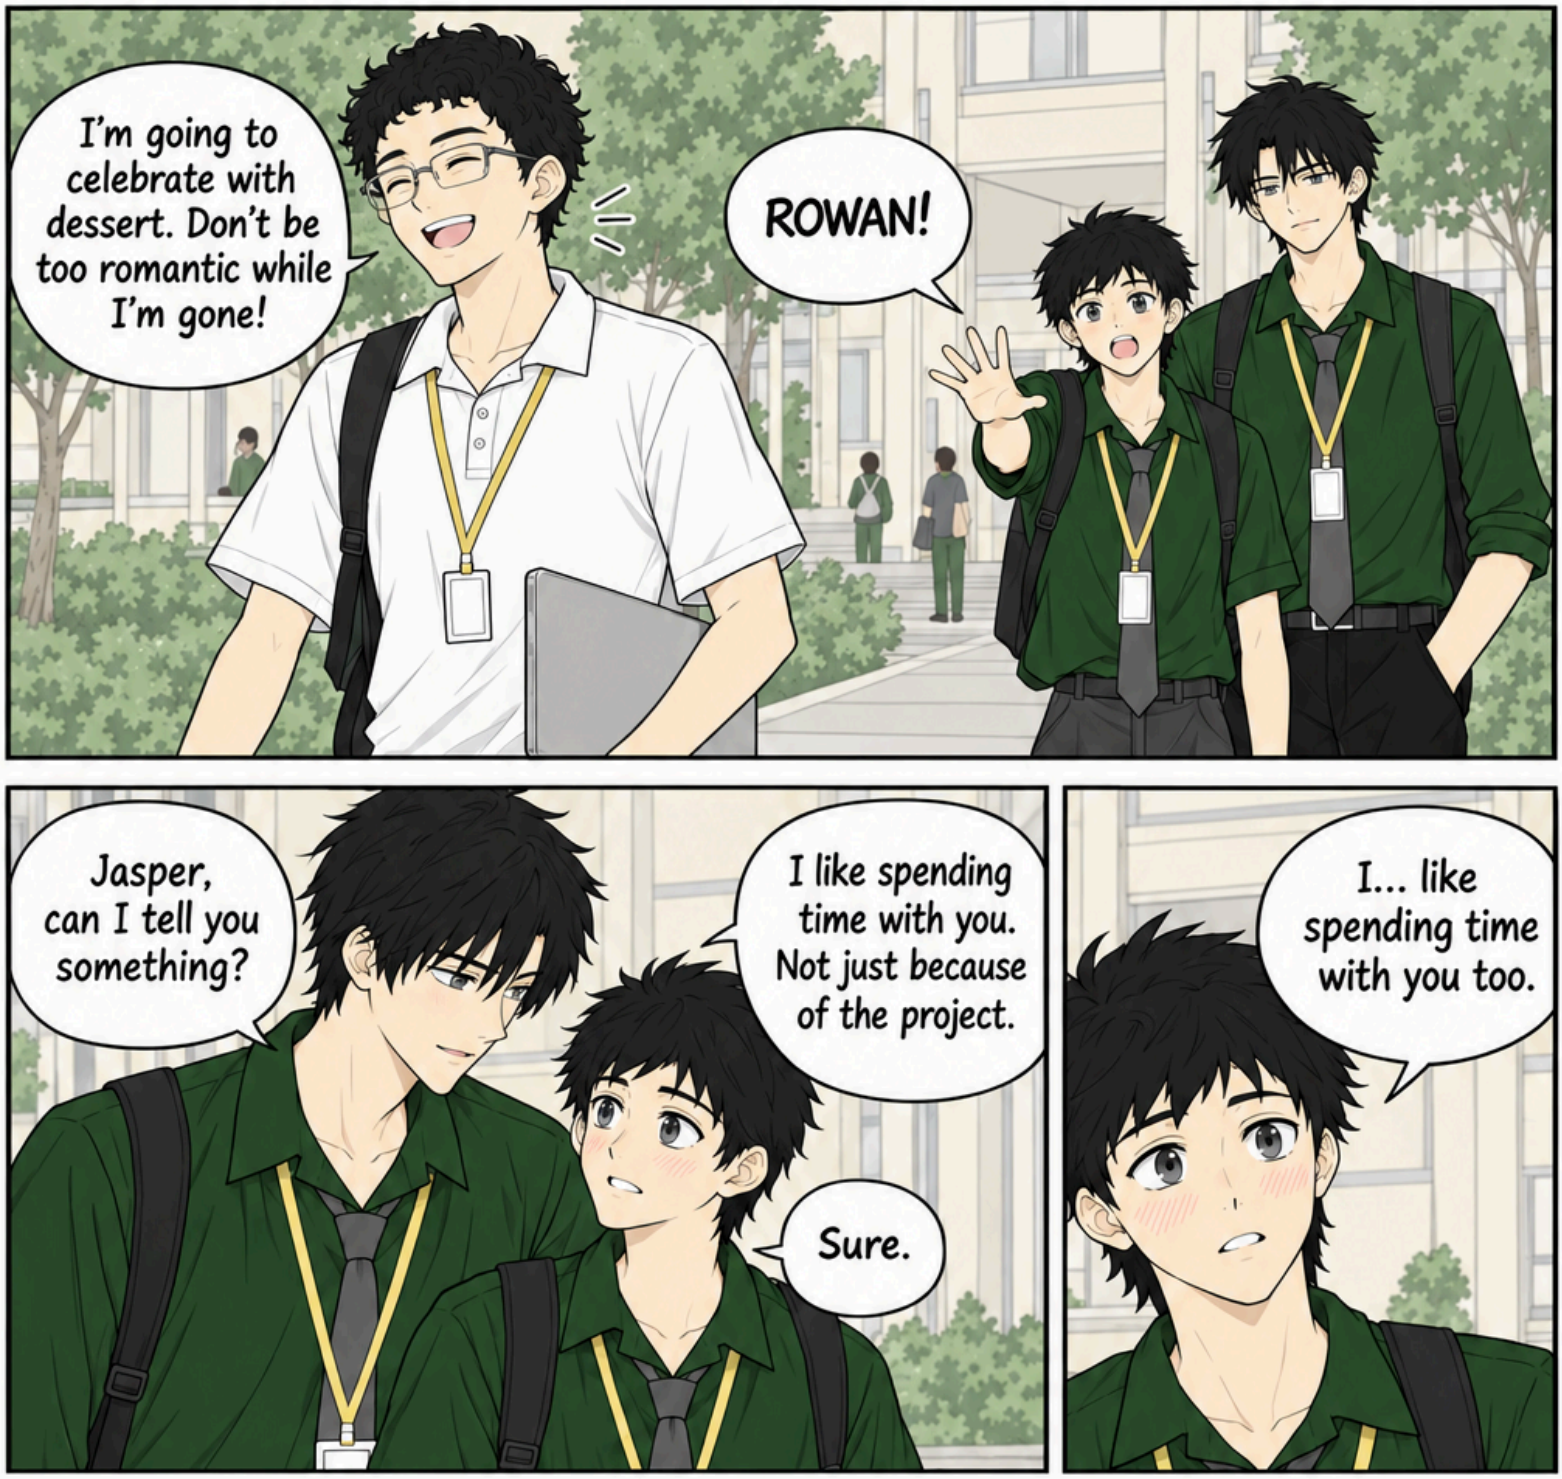

The backup works, but it's two days old.
We lost our latest changes?
We still need to rebuild the forms and test everything.
Can we finish this time?
We can if we work together
Then let's do it!

I just want to help you
Wait. you changed the query without telling me.
Let me fix it!
Stop changing things without telling me!
See?! Still Error!
Fine. Maybe you should do it yourself.

Maybe I was wrong to think we could do this together.
B
BLAKE
MESSAGE FROM BLAKE
I'm sorry.
10:24 AM
Not you.
I wasn't angry at you, I was frustrated with the situation.
Not me?

Guys the system finally Working!
Check the database connection
Thanks Blake!
Trust yourself.

Our project is a student appointment system designed to make scheduling easier.
User can log in and choose an appointment schedule.
We designed it to be simple and easy to use.
Good work!

Code can solve problems.
But the heart has its own answers.

THE END

Title: Code & Hearts

Created by:

Genre: Romance,School Life, Technology/IT
Setting: College Computer Lab,Library,and Campus Coffee Shop
Target Audience: IT Students/Young Adult Readers

SYNOPSIS

Jasper, a friendly and hardworking third-year IT student, is focused on coding, coffee, and getting through college. His ordinary school life changes when he is assigned to work with Rowan, his playful best friend, and Blake, a quiet and intelligent classmate.

As the three work together on their final information-system project, Jasper slowly discovers that his feelings toward Blake are becoming more than friendship. Between late-night coding, stressful deadlines, unexpected problems, and Rowan's constant teasing, Jasper and Blake begin to grow closer.

But when their project nearly falls apart, they must learn that teamwork is not only about writing the right code. Sometimes, trust, patience, and understanding matter just as much.

Code can solve problems. But the heart has its own answers.

CAST OF CHARACTERS

JASPER: 20 years old, 3rd-year IT student Friendly, hardworking, and passionate about coding and coffee. Jasper is dependable when it comes to schoolwork, but he becomes shy and easily flustered around Blake.

ROWAN: 20 years old, 3rd-year IT student Jasper's close friend. Playful, observant, and always ready with a joke. Rowan notices Jasper's feelings before Jasper is ready to admit them.

BLAKE: 21 years old,3rd-yearintelligent Quiet, intelligent, and serious about programming. Although he appears reserved, Blake is thoughtful and caring toward the people close to him.

MS. REYES IT Instructor: Strict but fair. She assigns the final project that brings Jasper, Rowan, and Blake together and pushes her students to take their work seriously.
